ABSTRACT

This report contains summary tables of Colorado state graduation rates for the class of 1994 and dropout rates for the 1993-94 school year, along with reports of graduation and dropout rates by school district. The dropout rate is an annual rate reflecting the percentage of all students enrolled in grades 7 through 12 who leave school during the reporting period and who are not known to transfer to other public or private schools. The dropout rate for the 1993-94 period was 4.3%, the same rate reported for the 1992-93 school year. This rate does not include students who were expelled from school. Of the 12,790 students reported as dropouts during the 1992-93 year, 3,780 were reported as retrievals during the 1993-94 year. The 1994 graduation rate is a 4-year rate based on school district reports for students who began ninth grade in the 1990-91 school year. The graduation rate for the class of 1994 was 78.8%, a decrease of 1.1% from rates reported for the classes of 1992 and 1993. The rate for traditional high schools only was 81.8% in 1994. This reflected modest but steady increases in the graduation rates of minority groups in traditional schools. Some questions and answers about dropout and school completer rates are attached. (Contains 13 tables.) (SLD)

ACKNOWLEDGEMENTS

This publication was prepared by Stella MacKenzie under the direction of Jo Ann Keith, Statistics/Data Base Coordinator with the Research and Evaluation Unit.

Local school district personnel were essential in providing information contained in this publication. Their time and effort are appreciated.

Christine Warren-Head, Cain Padelio and Diedre Middents with Information Management Services Unit were very helpful in providing data processing support.

Appreciation is also expressed to Shannon Smith for her assistance in processing data for this publication.

MISSION STATEMENT

The Research and Evaluation Unit of the Colorado Department of Education empowers our coworkers, the public, and the educational community to make informed decisions regarding quality education for Colorado's diverse learners by collecting and disseminating accurate, timely information, and by sharing our expertise in data collection, research and evaluation.

INTRODUCTION

This report is divided into two major sections:

- Summary tables of state graduation rates for Class of 1994 and dropout rates for the 1993-94 school year
- Reports of graduation and dropout rates by district

A graduate is a student who completed locally-defined requirements for graduation from high school. If a student is not considered a graduate by the local board of education, then he/she is not included in the graduation rate calculation.

The graduation rate is a cumulative or longitudinal rate which calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated over a four-year period (i.e., from grades 9-12). However, it may also include students, under age 21, who completed high school in three years, four years, or longer.

During the fall of 1988, a task force comprised of school district and Colorado Department of Education personnel recommended that the graduation rate calculation be based on information reported for the dropout data collection system. The dropout data collection system, implemented in the 1987-88 school year, provides pupil membership and transfer data by grade, school, and district. Schools with grades 7-12 are required to complete an end-of-year report which provides counts of students entering and withdrawing during the 12 month period July 1 through June 30.

The dropout rate is an annual rate reflecting the percentage of all students enrolled in grades 7-12 who leave school during the reporting period and are not known to transfer to other public or private schools. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

The 1994 graduation rate is a four-year rate based on students reported by school districts who began 9th grade in the 1990-91 school year. The membership base used to calculate a high school's graduation rate includes students who transfer into the Class of 1994 and excludes students who transfer out of the Class of 1994. In addition, high schools can adjust their membership base for a student reported as a dropout during a previous school year if the high school has documentation that the student returned or transferred to another educational program.

Although the Department is able to report graduation rates for the Class of 1994 and for future graduating classes, it is not currently possible to track students who drop out from their graduating class but complete their education several years later.

Several school districts have initiated alternative education programs for students who have dropped out or are at risk of dropping out. For those districts that have alternative schools, a district graduation rate, completer rate, and dropout rate is calculated including and excluding the alternative school. This comparison enables the reader to evaluate the rates of the traditional school program apart from the total district rates.

GRADUATION RATES

The Colorado graduation rate for the Class of 1994 is 78.8 percent. This is a decrease of 1.1 percentage points from rates reported for the Class of 1992 and 1993. The Class of 1991 had a 78.9 percent graduation rate.

The graduation rate of 78.8 percent represents all Colorado public schools, including alternative schools. There are 52 alternative and second chance high schools in the state that address the educational needs of students who previously dropped out or are at risk of dropping out of school. These alternative schools not only impact districts' graduation rates but also the overall state graduation rate since they are serving more and more students. The number of graduates from alternative schools has increased 41.1 percent, from 867 students in 1991 to 1,223 students in 1994.

The graduation rate for traditional high schools increased from 81.4 percent in 1991 to 82.7 percent in 1993, but decreased to 81.8 percent in 1994. When alternative high schools were excluded, modest but steady increases were shown in the 1991 to 1993 graduation rates for Black students - 71.7 percent to 74.0 percent; Hispanic students - 68.8 percent to 69.0 percent; and White students - 84.7 percent to 86.2 percent. However, in 1994 traditional high school graduation rates for each of these groups fell below the 1993 rates; Black students - 73.3 percent; Hispanic students - 66.7 percent; and White students - 85.6 percent.

Seventy-four school districts or 42 percent of all Colorado school districts had a graduation rate at or above 90 percent in 1994. This is an increase from the Class of 1991, sixty-seven school districts (38 percent) had a graduation rate at or above 90 percent, but a decrease from Class of 1993 when eighty-four school districts (48 percent) had a graduation rate of 90 percent or greater.

Thirty-four percent of Colorado's public high schools had a graduation rate of 90 percent or better, an increase from 31 percent in 1991, and a decrease from 39 percent in 1993.

COMPLETER RATES

The completer rate for the Class of 1994 is 79.9 percent. Completers include graduates and students receiving other certificates or designations of completion from a Colorado public high school.

GED COMPLETERS

According to information collected by the Adult Basic Education/GED (General Education Development) Office from GED testing centers, 6,987 students (66 percent of the test takers) received a GED during 1994.

Of the 6,987 students receiving a GED, 3,705 (53 percent) were under 21 years of age. During the 1993-94 school year, 1,522 GED recipients, under age 21, indicated they had previously attended a Colorado public school.

DROPOUT RATES

Colorado's dropout rate for the 1993-94 school year was 4.3 percent and is the same rate as reported for the 1992-93 school year. Legislation enacted in 1993 mandated that students who were expelled from school were to be excluded from the dropout rate calculation, resulting in the statewide annual dropout rate remaining at 4.3 percent.

The total membership base for grades 7-12 was 305,768 and 13,077 students dropped out resulting in the rate of 4.3 percent.

The total number of students reported as being expelled during the 1993-94 school year was 1,411. Of that number, 878 students remained expelled and 533 had returned to an educational program by the end of the school year.

Of the 12,790 students reported as dropouts during the 1992-93 school year, 3,780 were reported as retrievals during the 1993-94 school year. This represents approximately one-third (30 percent) of the 1993-94 dropouts returning to school the following year.

An increase in student dropout rates for the 1993-94 school year was reported by 76 school districts.

- The graduation rate for Class of 1994 is 78.8 percent. The Classes of 1992 and 1993 had graduation rates of 79.9 percent which was an increase of 1.0 percentage point over the 1991 rate of 78.9 percent.
- The graduation rate of 78.8 percent represents all Colorado public schools including 52 alternative schools. The number of graduates from alternative schools has increased 41.1 percent, from 867 students in 1991 to 1,223 students in 1994.
- Female students continue to exhibit a higher graduation rate than male students, but rates for both gender groups dropped below the rates reported for the Class of 1991. The 1994 graduation rate of 81.1 percent for female students is 0.1 percentage point lower than the 1991 rate of 81.2 percent. For male students the 1994 rate of 76.4 percent is 0.4 percentage point lower than the 1991 rate of 76.8 percent.
- Graduation rates for minority students have also dropped below the rates reported for the Class of 1991. In 1992, American Indian students showed an increase of 6.1 percentage points in their graduation rate, but for 1993 their graduation rate dropped below the 1991 rate. In 1994 the rate increased slightly over 1993, but remains lower than the 1991 rate.
- For 1992 and 1993, Asian students reflect annual declines of 1.1 and 1.4 percentage points respectively, from the 1991 rate. In 1994 the rate increased by 1.1 percentage points over 1993, but also remains below the 1991 rate.
- Black students increased their 1992 rate by 0.2 percentage point, but declined by 1.1 in 1993 and by 1.3 in 1994.
- The graduation rate for Hispanic students increased by 0.2 percentage point from 1991 to 1992, then declined by 0.1 in 1993 and 2.5 in 1994.
- White students showed increases of 1.3 and 0.3 percentage points in 1992 and 1993. In 1994, however, the rate dropped by 0.9 while remaining above the Class of 1991 rate.

- The completer rate is also a cumulative or longitudinal rate which calculates the number of students who graduate and students who receive certificates or other designations of high school completion as a percent of those students under age 21 who were in membership in a Colorado school district program and could have graduated or completed.
- The completer rate of 79.9 percent for the Class of 1994 is 1.1 percentage points higher than the graduation rate.
- Completer rates are higher than graduation rates for all ethnic/racial groups; 2.5 percentage points for American Indian students, 0.4 for Asian students, 1.9 for Black students, 1.7 for Hispanic students, and 0.9 for White students.
- Completers for the Class of 1994 include: 31,867 who completed local board-defined requirements for graduation and received a high school diploma from a Colorado school district, 292 who received a G.E.D. (General Education Development) certificate after completing a program of studies in a Colorado school district, and 166 students who received certificates or other designations of high school completion, attendance or training from a Colorado school district.

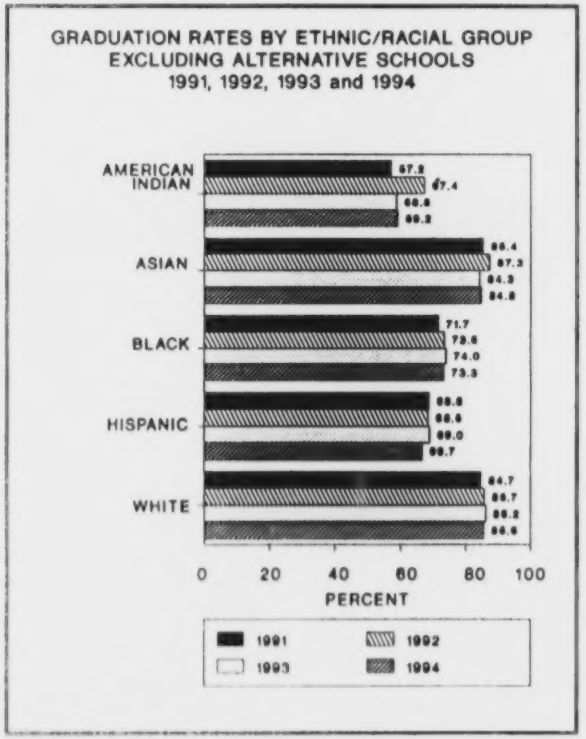
- Districts whose total membership is less than 300 students have the highest average graduation rates of any of the size groupings, 91.7 percent in 1991 and 95.0 percent in 1992 and 1993. From 1993 to 1994 the graduation rate for these districts fell by 0.9 percentage point to 94.1 percent.
- Districts in the 301-600 size category had an average graduation rate of 79.3 percent. Of all the size groupings this is the only one that exhibited an increase in their collective rate from 1993 to 1994.
- Districts whose total pupil membership is 1,201-6,000 showed the highest percentage point increase (4.0) in their graduation rate from 1991 to 1993. These districts showed a decrease in their rate from 1993 to 1994 of 1.2 percentage points.
- The 20 districts whose total membership exceeds 6,000 students account for 72.9 percent of the state's graduates and have a graduation rate of 78.1 percent. This represents a decline of 1.2 percentage points from the 1993 rate of 79.3 percent.
- Districts in the Small Attendance category reflect the only increase (0.7) in the graduation rate from 1993 to 1994 and had the highest average graduation rate of all the setting categories.

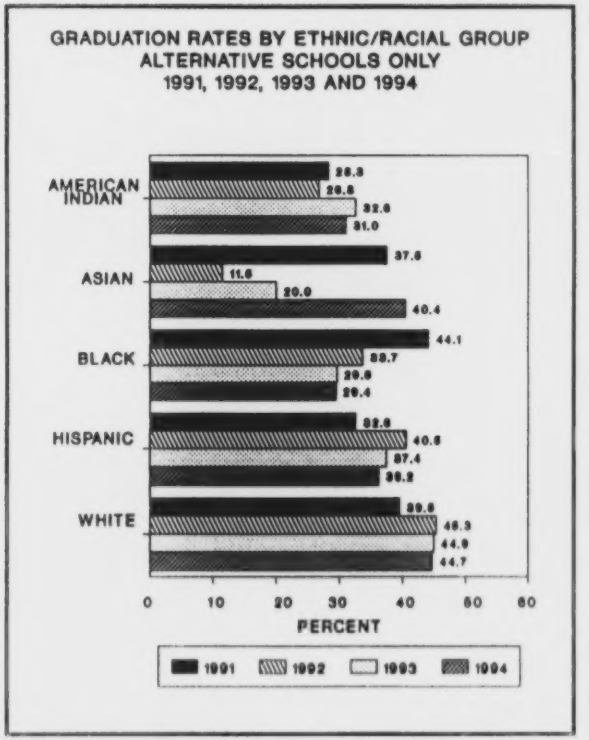
Figure 1:



- Graduation rates for the Class of 1994, excluding the alternative schools, show White students with the highest graduation rate at 85.6 percent, followed by Asian students, 84.8 percent; Black students, 73.3 percent; Hispanic students, 66.7 percent; and American Indian students, 59.2 percent.

- The state graduation rate, excluding alternative schools, increased from 81.4 percent in 1991 to 82.4 percent in 1992 and 82.7 percent in 1993. In 1994 the rate is 81.8 percent, a decrease from the 1993 rate.

Figure 2:



- During recent years, more and more school districts have initiated alternative educational programs for students who have dropped out or are at risk of dropping out. Alternative schools were instrumental in graduating 1,223 students in 1994.

- The state graduation rate for alternative high school programs increased from 37.9 percent in 1991 to 41.9 percent in 1992. The rate fell to 40.8 percent in 1993 and remained there in 1994.

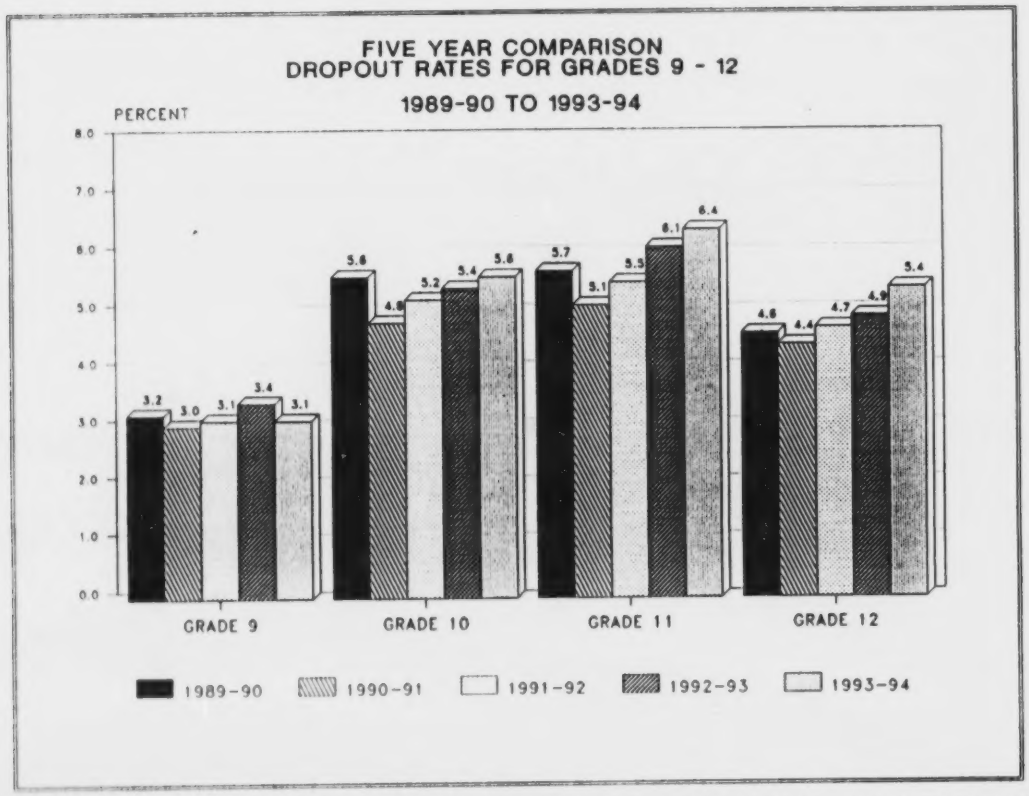
Figure 3:



- Beginning with the 1993-94 school year, expelled students were excluded in the computation of dropout rates in accordance with a legislative mandate.
- Although expulsions are excluded from the calculation, dropout rates for grades 10, 11 and 12 are higher than the 1992-93 rates for those grades. Grade 9 showed a decrease from the 1992-93 rate of 3.4 percent to 3.1 percent in 1993-94.
- Approximately 43 percent of Colorado's school districts showed an increase in their student dropout rates in 1993-94 over the previous school year.
- The dropout rate for Grade 11 continues to be higher than the other grades 9, 10 and 12.

- The 1993-94 dropout rate for students in grades 10 through 12 for each ethnic/racial group reflects the highest rate for the last seven years. The dropout rate for 1987-88 was 6.4 percent and for 1988-89 was 6.8 percent.
- Of the total number of dropouts reported for grades 7 through 12, 83.9 percent were from grades 10 through 12.
- The dropout rate reported in Table 6 for grades 10-12 includes data from alternative schools. Therefore, the rate is different from the state total rate for grades 10-12 reported in Table 10 which excludes alternative schools.

QUESTIONS AND ANSWERS ABOUT COLORADO DROPOUT RATES

Who Is Considered a Colorado Dropout? By Colorado law, a dropout is a "person who leaves school for any reason, except death, before completion of a high school diploma or its equivalent, and who does not transfer to another public or private school or enroll in an approved home study program." A student is not a dropout if he/she transfers to an educational program recognized by the district, completes a G.E.D. or registers in a program leading to a G.E.D., is committed to an institution that maintains educational programs, or is so ill that he/she is unable to participate in a homebound or special therapy program.

Who Is a Transfer? A student is considered a transfer to another district or educational program if the receiving school or program sends for the student's records, or if the sending district can document that the parent or legal guardian has provided information regarding the school or education program into which the student is transferring. This definition of a transfer is in accordance with the Public School Finance Act of 1988, 22-53-207(3), C.R.S.

What If a Student Just Disappears? A student who disappears from school is considered a dropout unless the student transferred to another educational program.

What Is the Dropout Rate? The Colorado dropout rate is an annual rate, reflecting the percentage of all students enrolled in grades 7-12 who leave school during a single school year. It is calculated by dividing the number of dropouts by a membership base which includes all students who were in membership any time during the year. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

Can the Dropout Rate Be Multiplied by Four to Find Out How Many Students Drop Out Over the Four Years of High School? No. The dropout rate is an annual rate only. It is not statistically valid to simply multiply the annual rate by four to find out how many students dropped out during high school. The graduation rate, however, provides a measure of how many students completed graduation requirements.

Can a Student Drop Out More Than Once? How Does That Affect the Annual Dropout Rate? Some students have a pattern of dropping out and returning to school several times before they either graduate or drop out and do not return. In the state reporting system, a student is counted as a dropout only once within a given reporting period (i.e., from July 1 through June 30). However, if a student drops out during one school year, then returns to school the following year and drops out again, he/she will be counted in the dropout rate two years in a row.

How Valid Are Colorado's Dropout Rates? The Colorado Department of Education provides definitions, guidelines, and training regarding the proper procedures for identifying and reporting dropout statistics. The data are edited and screened upon receipt and a turnaround document with the calculated rates is returned to the district for verification. In submitting the data to the state, each superintendent signs an assurance that the district has followed the required procedures.

How Are Dropout Data Reported? Dropout data are reported annually to the Department by Colorado school districts. Dropout data are collected for grades 7-12, by school building and by district. Data are reported separately by sex, ethnicity/race, and grade level of students.

QUESTIONS AND ANSWERS ABOUT COLORADO GRADUATION RATES AND COMPLETER RATES

Who Is a Graduate? In Colorado, local school boards are responsible for establishing the requirements for high school graduation. There is no statewide definition.

Do All Colorado School Districts Have the Same Requirements For Graduation? No. Each local school board defines graduation requirements for its district. These vary from district to district. The state considers a graduate to be any student who has met the graduation requirements of his or her local school district.

Are There Students Who Complete 12 Years of School and Do Not Graduate? Yes. Some districts award certificates or other designations of high school completion or attendance to students who do not complete the standard high school graduation requirements. Also, some students who do not complete the traditional high school graduation requirements do successfully achieve a general equivalency certificate (GED).

Who Will Be Included in the Calculation of Graduation Rate? Two types of rates are calculated by the Department for school districts and for the state: Graduation Rates and Completer Rates.

Graduation Rates. Graduation rates are calculated based on high school graduates only. A graduate is a student who completed locally-defined requirements for graduation. If a student is not considered a graduate by the local board of education, then he/she is not included in the graduation rate calculation.

Completer Rates. Completer rates are calculated based on all students who are graduates, plus those who are not considered graduates but receive another certificate or designation of high school completion.

What Happens to Students Who Graduate in the Summer? Summer graduates are included in the graduation rate calculation of the current graduating class, or in the following year's graduation rate calculation, based on a district's reporting practice.

What Happens If a Student Was Reported as a Dropout at Some Point During His or Her High School Years and the School Subsequently Receives Information that the Student Transferred Into Another Educational Program? Does That Student Affect the Graduation Rate For the Class of Which He/She Was Originally a Member? No. If the high school has documentation of the student's transfer into another educational program or completion of an educational program, then an adjustment may be made to the membership base used to calculate the graduation rate. These students are not reported as completers from the district, they are taken out of the membership base of the school and treated as if they transferred from the school. However, the dropout rate for the year in which they were reported as a dropout remains unchanged.

236

What Is the Graduation Rate? The graduation rate is a cumulative or longitudinal rate which calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated over a four-year period (i.e., from Grades 9-12).

237

A graduation rate will be reported for each particular graduating class (i.e., the Class of 1994). The rate is calculated by dividing the number of graduates by the membership base. The membership base is derived from the end-of-year count of eighth graders four years earlier (i.e., in the spring of 1990), and adjusted for the number of students who have transferred into or out of the district during the years covering grades 9 through 12.

What Is the Completer Rate? The Completer Rate is also a cumulative or longitudinal rate which calculates the number of students who graduate, receive certificates or other designations of high school completion. It is also calculated as a percent of those who were in membership and could have graduated or completed over a four-year period (i.e., from Grades 9-12).

Information needed to calculate graduation and completer rates is available from the dropout data collection system initiated in the 1987-88 school year.

What Is Meant By the "Class of 1994"? Graduation rates and completer rates will be reported for a particular class. The Class of 1994 will include students who graduated in the spring of 1994 and during the summer of 1994. It may include students who completed high school in three years, four years or longer.

SOURCE OF INFORMATION

Data published in this report were obtained from all Colorado public schools having any grades 7-12 on CDE Form 2, End of Year Pupil Membership, Dropouts and Graduates Report. Data collected on these forms were then summarized for reporting in the various formats.

Data for alternative schools in some tables are reported separately. This provides additional information for those districts' schools that are established to give students who are dropouts or potential dropouts an alternative to the traditional program. The alternative schools' data also includes those Second Chance Programs operated by districts and Boards of Cooperative Services. However, it does not include any educational programs for dropouts that are incorporated as part of the traditional high school program.
